SUMMARY

Dedicated and detail-oriented web developer with a strong foundation in HTML, CSS, JavaScript, TypeScript, Python, React, Java, C#, and SQL. Experienced at designing and building websites and software applications, aiming to enhance user experiences through responsive and easy to use designs. I am proficient in debugging code using proven testing techniques and debugging software. Self-starter who enjoys taking responsibility of a project through all phases of the software development lifecycle. Seeking an opportunity to collaborate with cross-functional teams, enhance my software development skills, and contribute to the success of innovative development initiatives.

-

WORK

EXPERIENCE

Valuation Trainee, Steele & Associates, L.L.C.

Oct 2016 - July 2022

- Assisted senior appraiser with analytical research to develop high quality appraisal reports which increased production flow by 50%.
- Composed entire appraisal reports, including a succinct introduction, a specific area and neighborhood analysis, a detailed site and improvement analysis, a brief zoning analysis, a market and tenant analysis, and a comprehensive approach to market value.
- Analyzed property information, including, rent rolls, operating statements, leases, surveys, phase I and property condition reports, zoning reports, and title reports.

Valuation Associate, CBRE

Oct 2014 - Oct 2016

- Wrote entire front ends for all senior appraiser reports, which increased the production flow by 25%.
- Evaluated and organized specific property information for complex office properties.

Special Education Teacher, Mesa Public Schools

Aug 2009 - Oct 2014

- Developed and executed dynamic, differentiated lessons to enhance reading and writing skills for 7th-8th grade students with diverse needs.
- Utilized individualized educational plans to help students meet 90% of their IEP goals, resulting in significant progress and increased confidence.
